## Frontend Developer

Frontend development professional, in addition to knowledge and experience in UX (user experience). I have a great capacity for self-learning, this allows me to achieve better rates of productivity for the company.

## EXPERIENCE

### FrontEnd Developer - Freelance

I developed a web application (online restaurant) I integrated with the backend using API type graphql to obtain data in real time using websockets.

### FrontEnd Developer - Freelance

Create an online store from scratch with payment gateway with technologies modern for the web one of my biggest challenges was uploading all the code to production, after a lot of research I achieved it and now it is in functioning.

### Layout Designer - Freelance

Layout a web page that is possible to interact from any device and create a good UX user experience.

### FrontEnd Developer - ReactNative

I developed a mobile application (iMakeUp) used to buy and try on makeup, i developed the layout and frontend programming, my biggest challenge was uploading the app to the appGallery application store.

## ABILITIES

JavaScript

ReactJS -- ReactNative

NextJS

TypeScript

GraphQL
